

Notification from: **Melican Middle School (MMS)**

November 5, 2021

Dear Melican Families –

We administered the MetroWest Adolescent Health Survey this morning to our students as planned. Students whose parents opted them out reported to the library to work independently and/or read.

This is the MetroWest Foundation's first time administering this survey electronically. Unfortunately, there were some technical issues on their end and, as a result, we had approximately half of our students able to log in and complete the survey. We have been in touch with the Foundation, and we do not know if there will be an opportunity for students who did not complete the survey to take it or not. We will let you know if this option becomes available.

We connected with the administrators at Trottier Middle School and they experienced the same issues today when they administered the survey.

I apologize for the frustration some of our students experienced as they tried to log in to the survey this morning.

Respectfully,

Michelle Karb, Principal
